NORTHERN CROPS IN FINE SHAPE

Territory Tributary to Athabasca
Landing Bears Splendid Stands
of Grain

J. R. Boyle, M.P.P., returned last night from a trip to Athabasca Landing and surrounding district. Mr. Boyle was away a little over a week.

"The finest crops that I have seen to date in the province are to be found in the region tributary to the Athabasca river," said Mr. Boyle to the Bulletin this morning.

"In Eden Valley and Pine Creek settlement, southeast and east respectively of Athabasca Landing, the crop is in excellent condition. In fact, in the entire area around the Landing, the country in the vicinity of the Landing has settled up very rapidly, and the first year crop converted a great deal of scrub land into almost as good a crop as dry ground breaking is being done there and the settlers appear to be well satisfied."

"Considerable settlement also goes on, in the vicinity of Stony Creek, south of the Landing, and in the townships north of the Landing are commanding now to be settled. The settlers are anxious to move to Canada and are fully willing to do so."

Cutting in a Week.—"In that part of the country which is further north, the country saw spring wheat which would be nearly four feet high and will be ready to cut in a week."

"The hay crop everywhere is immense and Peavine grows very luxuriantly all the open country of that district."

"The C. N. R. contractors are grading new roads to the Landing and wagons are making the long haul into the Landing. They are working hard to get the Tawatinaw valley. They are within sight of the mouth of the river."

A Room at the Landing.—"Inns in Athabasca Landing are very few. There are no inns in the town, but the town is entering into the spirit of things and those who left here intending to go to the Peace River have settled in the vicinity of Athabasca Landing."

POLICE AWAKE.—Whether Supposed Dr. Crippen and Companion Have Been Arrested on the Montrose.

Long, July 24.—In the face of the statements made by the Seaford yard authorities today to the effect that they had received no official information concerning the man reported appearing in a London paper that the two passengers on the steamer Montrose were his son and Mrs. John Robinson, whom he had been arrested by Capt. Kendall as Dr. Hawley Crippen or Ethel Leavenworth, the London police force and the Forensics had devoted a day to a preparation of the facts of the murder in the case. It was agreed to send to the public prosecutor in order that an incident may be quickly framed in which the couple could be turned in, in a statement issued today the Scotland Yard officials declare that the wife and son sent by Capt. Kendall to the Montrose were not justified in arresting the captain after he had been knocked out. One Londoner after being stoned several times, fired into the head, and was killed.

The London police called the entire force of the city to the place Inspector Dewar, on board the White Star liner Laurentic, is going to hold a meeting with the chief constable to fix the identity of the two mysterious passengers. Regarding the wireless messages from Capt. Kendall, of the Montrose, settling forth the commander's belief that Dr. Crippen and the London girl were guilty in the killing of the captain, Capt. Kendall replied with a message containing a minute description of the incidents. A second telegram from Capt. Kendall contained the declaration that he was doubtless certain that the two mysterious persons were the two wireless typists. Since these wireless messages were exchanged between Capt. Kendall and the London girl, it is believed to come from the police from the Montrose, said Superintendent Forens tonight.

FELL DOWN SHAFT.
Brandon Man Meets With Bad Accident But Will Recover.

Brandon, July 24.—Wm. Bjorlan, an employee of the Pioneer Fruit company, is lying in the hospital here, badly injured from a fall down the elevator shaft in the fruit company's building.

It appears Bjorlan, while standing near the shaft, was suddenly taken by the hand and was thrown over, tumbling down one storey, and fell on his head and hands. When he was picked up, it was apparent he had suffered a fractured skull, compound fracture of the nose, and a severe internal injury.

After examination it was found that one of his hands was broken and his head very badly cut and bruised as a result of the fall from the height. He was at once removed to the hospital and today, it is believed that he will recover from his injuries.

In the meantime, several injured men were conveyed to La Tupe hospital.

It appears that one of the men was at the act of opening a tin of powder with an ax when an explosion occurred, causing the lid to fly off and the powder to be blown into a cut in which a large quantity of dynamite was stored and exploded, filling the room.

A terrible explosion took place. Two men, O'Reilly and Hickey, were severely injured, and, as far as can be learned, parts of their bodies being picked up in all directions. The other two men were picked up and carried to the hospital, one suffering a fractured skull, the other a severe internal injury.

These three will probably not live.

**LAURIER STOPS TRAIN
TO RECEIVE WELCOME**

Delegation From French Town State That Welcome Was Prepared and Premier Offered a Stop—Arrival of Prince Albert Greeted by 3,000 People.

Prince Albert, July 26.—Sir Wilfrid Laurier, who had received hearty receptions on their way from Saskatoon to Prince Albert. This morning the premier was welcomed by a large delegation from French town of Vonda, who informed him that his fellow countrymen in that town had been arrested.

Notwithstanding the fact that he was only announced to have arrived, the delegation were picked up and carried to the rear of his car and received with loud cheers of "Vive Laurier."

Sir Wilfrid was touched by this demonstration and addressed the crowd in French. He said he was always glad to go among the people who spoke his native tongue.

From Vonda the premier proceeded to the railway station where he met at the railway station by the civic authorities and a crowd of over 3,000 people. The town is en fete for Sir Wilfrid's address, a big meeting in the skating ring has been declared a civic holiday.

ELEVEN KILLED IN EXPLOSION

Cache of Dynamite Explodes at Construction Camp on the Transcontinental

—

Quebec, July 27.—News was received here today of another fatal accident on the Transcontinental railroad about 125 miles west of La Tupe. The accident, which caused the death of ten men, occurred yesterday at a camp in Bonaventure and a number of severely injured men were conveyed to La Tupe hospital.

It appears Rierard, while standing near the camp, was suddenly taken by the hand and was thrown over, tumbling down one storey, and fell on his head and hands. When he was picked up, it was apparent he had suffered a fractured skull, compound fracture of the nose, and a severe internal injury. He was moved to his home and a doctor attended him. After examination it was found that one of his hands was broken and his head very badly cut and bruised as a result of the fall from the height. He was at once removed to the hospital and today, it is believed that he will recover from his injuries.

In the meantime, several injured men were conveyed to La Tupe hospital.

It appears that one of the men was at the act of opening a tin of powder with an ax when an explosion occurred, causing the lid to fly off and the powder to be blown into a cut in which a large quantity of dynamite was stored and exploded, filling the room.

**C.N.R. RESPONSIBLE
FOR FOREST FIRES**

Superintendent of Forestry Blame C.N.R. For Fires in Northern Saskatchewan and Alberta—Says Only Two Caused by Setters.

Ottawa, July 27.—On July 26, H. C. Chapman, superintendent of forestry, has just returned from a tour of inspection to the west.

He stated today that the Canadian government is most responsible for the forest fires which have done so much damage in Northern Saskatchewan and Alberta.

Only two of the fires have been caused by setters.

Chapman's report drew the attention of both the C.P.R. and C.N.R. to the piles of brush and dried timber which were along the line of the Great Lakes and the lakes themselves.

The C.P.R. took action and gave a firm order to the lumber companies of this moment, but the C.N.R. has done nothing, and in the opinion of Mr. Chapman, the C.N.R. is responsible for the fires.

The C.P.R. has been trying to make light of the matter, but there is every evidence of uneasiness at the place.

This evening's report from the west shows of trouble said the insurgents had retreated to the hill country and that the troops of the province had officially confirmed at the palace to General Millet with twelve thousand men.

It is desired that there is any widespread rebellion. Millet is disgruntled because he has been ordered to leave Cuba.

He will also help to put out the fire in the hills, and will be able to make light of the matter, but there is every evidence of uneasiness at the place.

The air is now clearing the sun is rapidly drying up the streets and by noon the conditions will be ideal for the return of the visitors who are arriving this morning from all sections who are here.

**EXPECTED TROUBLE
DID NOT OCCUR**

Each Side Trying to Claim Sir Wilfrid Laurier as Champion of Its Tariff Views.
